Submitted to His Highness.

The Chief Engineer has submitted for the orders of Government a representation from the Mysore Engineering Association requesting that Rule 29 A(2) of the Public Servants' Conduct Rules which precludes persons not actually in the public service from being members of Service Associations, may be relaxed in the case of the Engineering Association, as its main object is the improvement of the professional knowledge of the members and as that object will be frustrated if experienced members of the profession are excluded from the membership on the ground of their having retired or being outsiders. The First Member of Council is of opinion that the Association deals more with technical than administrative matters and as such the bar may be safely removed. I agree with the First Member in this view. The request of the Association may be graciously sanctioned.

MYSORE ENGINEERS' ASSOCIATION,

No. 363

Bangalore, 30th June 1921
(India).

Enclosures 2 & 8

FROM

K.R. SESHACHAR, ESQ., B.A., B.E., C.E.,
~~V. RANGASAMY IYENGAR, ESQ., B.E.,~~

HONORARY SECRETARY,

MYSORE ENGINEERS' ASSOCIATION,

BANGALORE.

To

The Chief Engineer
to the Government of Mysore,
Bangalore.

SIR,

I have the honour to forward for information the accompanying copy of the resolution passed by the Members of the Association at their last Conference, and to request the favour of your taking the necessary action in connection with it.

With a view to enable you to approach the Government on the subject-matter under correspondence viz., the request of the Association for being exempted from the operation of rule 29 (2) printed in G.O.No. 137-190 E.A.E. 419-19-4 dated 14-7-1920, interpreted in letter No. 1731 E.A.G. dated 3-5-1921 of the Chief Secretary, as precluding retired officers of the State from continuing as members of this Association, I am directed to invite your kind attention to the following few facts among others relating to Technical Associations and particularly to the Mysore Engineers' Association:-

Sub A
Sub B

(1) The Mysore Engineers' Association (formerly The Mysore Civil Engineers' Association) was formed under the kind patronage of our benign Government in March 1906. In his letter to the then Dewan, Captain Dawes, the first Honorary Secretary, while submitting the bye-laws of the proposed Association for the approval of Government stated as follows:-

"These rules have been framed by the Committee in a very comprehensive manner, following the lines of the bye-laws and regulations of the Chartered Institution of Civil Engineers in London." Thus the

18
9

Thus the ideal kept in view in starting the Mysore Engineers' Association is the same as that of the English Institution of Civil Engineers viz., improvement of the professional knowledge of the Members.

(2) This object will be frustrated if experienced members of the profession are excluded from the membership on the ground of their having retired or being outsiders. I may instance the cases of Messrs. Dalal, Karpur Shrinivasa Rao, N.N. Iyengar of the Bombay Service, and several others who have been helping the Association by contributing articles to its journals and in other ways.

(3) I may also point out here that in the cases of no Engineering Association all the world over, are restrictions imposed on memberships in the way indicated in the letter of the Chief Secretary under reference.

(4) Further our Association does not deal with controversial or other subjects and the aim and object of the Members are to ~~kxxxfi~~ benefit their employers (Government in almost all cases here) and also themselves by coming in touch with experienced engineers in different branches of Engineering.

(5) The Government at the outset extended their patronage to the Association on the clear representation that its aim and ideals will be indentical with those of the Institution of Civil Engineers in London, and the General Body now respectfully pray that the Government will be pleased to conform to their original order and to allow the Association the freedom of admitting as its members not only retired officers of the State but also such prominent outsiders whose experience in the opinion of the Association will prove helpful in improving the professional knowledge and usefulness of the Members.

(6) Probably the Government may have had in view discussions of Departmental Questions and matters relating to the personal official

prospects

10 (9

prospects of the individual Members concerned in connection with the letter under reference. If such discussions are considered objectionable by Government, the Association will be prepared to add a section to their rules, to the effect that when questions of the kind referred to above happen to be discussed, non-official members of the State, will be excluded from such meetings &c.

In conclusion, the General Body pray that you will kindly request the Government to consider their representation favourably and to cancel the order referred to.

I have the honour to be,

Sir,

Your most obedient servant,

K. V. Seshachar

HONORARY SECRETARY.

EXTRACT FROM THE MINUTES OF THE PROCEEDINGS
OF THE MYSORE ENGINEERS' ASSOCIATION, BANGALORE.

FOURTEENTH SESSION.

PROPOSITION NO. 4.

G.O.No. 420-473 E.A.G. 419-20-6 of 6th September 1920.

G.O. No. 1421-74 E.A.G. 419-19-4 of the 23rd February 1921.

Letter No. 1731/E.A.G. of the 3rd May 1921, precluding retired officers and officials from continuing as members of the Mysore Engineers' Association.

RESOLUTION NO. 4.

The Chief Engineer may be requested to kindly explain to the benign Government, the technical nature of our Association and the advantage it is likely to gain by being associated with the retired members of the State as well as eminent members of the profession from outside if possible, and to exempt the Association of Engineers from the application of the Proceedings referred to.

12
11

To

THE DEWAN OF MYSORE.

Sir,

I have the honour to forward for your information a copy of the Bye-laws and Regulations, which have been framed for the Association of Civil Engineers in Mysore by the Committee appointed for that purpose during the last Dusserah week.

2. These rules have been framed by the Committee in a very comprehensive manner, following the lines of the Bye-Laws and Regulations of the Chartered Institute of Civil Engineers in London.

3. Our reason for doing so is that an Association of this sort, if it is to be of any use at all, must run on the lines, which experience in the larger concern mentioned above has proved to be necessary.

4. The intention of the Society is that it shall be purely technical and entirely non-controversial. With this end in view the constitutents of the old P.W.D.Library have consented to part entirely with the general branch of that library and we are now at work collecting a very good set of standard works on Engineering subjects for the use of the new Society.

In this manner among others it is the intention of the Association to give all possible aid to those Engineers in our service, who wish to improve their knowledge of their profession.

5. We hope that in the near future we shall be in a position to show that the Association needs proper accomodation in the shape of a library and reading room (the Library is at present mainly in my office and considerably reduces the space in which I can work) and a room in which the General Meetings of the Association can be held and when that time comes we should like to feel that we can count on the substantial support of Government as it is necessarily a very difficult thing for us to raise the funds required for undertaking the buildings in question.

6. At the present time there are one or two points which require your approval.

13 (12

Please see page 14 sec. X para 1.

I think it would be very much the best arrangement so far as the Association is concerned and certainly so far as the Honorary Secretary is concerned, if he is not hampered with the general supervision of funds and the arrangement to which we ask your approval would be very useful to us.

Another point is that the printing of rules and proceedings of General Meetings for circulation to members will-if we pay ordinary rates- be a serious item in an annual expenditure.

We therefore propose for your favourable consideration that the Association be allowed to have its official publications printed free of cost at the Government Printing Press.

The alm will amount to almost fifty copies each of a dozen professional papers per annum and the issue of a small number of notices.

Hoping that the alm will receive your favourable consideration,

I have the honour to be,

Sir,

Your most obedient servant,

(SD.) B. DAWES,

HONORARY SECRETARY.

S.O.G. 2b—14 (13

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read-----

G.O.No.1421-74/E.A.G.419-19-5 dated 23rd February 1921, modifying Rule 29 A(3) of the Public Servant Conduct Rules regarding the formation of Service Associations.

2. Letter No.419 dated 16th July 1921, from the Chief Engineer to Government, submitting for the orders of Government a representation from the Mysore Engineers' Association, requesting that the above rul which precludes persons not actually in the public Service from being members of Service Associations may be relaxed in the case of the Engineering Association, as its main object is the improvement of the professional knowledge of the members and as thety object will be frustrated if experienced members of the profession are excluded from the membership of the Association.

E.A. 12—21—2

Order No. 1148 dated 22nd Aug. 1921.

10th September.

Government are pleased to direct that rule 29 (A) (2) of the Public Servant Conduct Rules be relaxed, as a special case, in the case of the Mysore Engineers Association so as to permit the inclusion among its members, of persons who, though not actually in the public service, ~~but who~~ are following or have followed the profession of Engineering

(17)

15

The following sentence may accordingly be inserted at the end of the above rule.

"The Mysore Engineer's Association is however permitted, as a special case, to include among its members other persons not actually in the Public Service, ~~who are following~~ who, though or have followed the profession of Engineering."

9-9-20

Chief Secretary to Govt.,

To

The Chief Engineer in Mysore.
